Factsheet

Are you ready to apply for BBRF?

This document will help you to decide if you are ready to submit an eligible, competitive and investment-ready application for funding under the current round of BBRF.

A table of key information has been prepared for you – if the information statements do not apply to your organisation or project, you may not be ready to apply for funding under this BBRF round.

Funding under BBRF will be very competitive. Successful projects will be well-developed and will make very strong, evidence-based claims against each of the four merit criteria.

Projects in the concept or early stages of planning are eligible to apply but they are unlikely to be competitive when assessed against investment-ready projects.

If you are not ready to apply this round, we would encourage you to strengthen your application and undertake further planning on your project and look to apply for funding in a future round.

Two funding streams

Funding is available **under two streams**:

- The **Infrastructure Projects Stream** is for projects involving the construction of new, or the upgrade or extension of existing infrastructure.
- The **Community Investments Stream** is for projects involving community activities including, new or expanded local events, strategic regional plans, or leadership and capability strengthening activities. Infrastructure activities as defined in Appendix C of the program guidelines, are not eligible for the Community Investments Stream.

Where can I get the BBRF Guidelines?

The two streams of funding have separate guidelines, make sure you read the correct guidelines for your project.

For BBRF Program documentation visit business.gov.au/BBRF.

For further information you can contact us on 13 28 46 or by [web chat](#) or through our [online enquiry form](#) on business.gov.au.

This document does *not* replace the BBRF Program Guidelines.

Key information to determine if you are ready to apply for BBRF Round Three

If these statements do not apply to your organisation and project, you **may not be ready** to apply for funding under this BBRF round.
